Concept of law on investment and investment activities developed

The State Investment Committee of Uzbekistan began work on the creation of a unified legislative act regulating relations in the field of investment activities in accordance with the Decree of the President of the Republic of Uzbekistan “On measures to drastically improve the investment climate in the Republic of Uzbekistan” from 1 August 2018.

Employees of the State Committee together with members of the Working Group, consisting of experts and representatives of the scientific community, prepared the Concept of the Law on Investments and Investment Activities.

- ▶ promoting the development of a system for monitoring the organization and development of investment activities;
