# World Customs Organization developed classification reference list for medical supplies COVID-19

On 9 April 2020, the World Customs Organization published an updated classification reference list to the medical supplies imported to fight against the spread of COVID-19.

The classification reference list is aimed at accelerating the cross-border movement of goods by systematizing codes of commodity nomenclatures of foreign economic activity for this group of goods.

The classification reference list does not have legal status, but its first version was actively used by national governments in preparing internal measures aimed at facilitating trade and transportation of goods.

**Below is the Second Edition of the HS Classification reference list for COVID-19 medical supplies.**

Section I. COVID-19 Test kits/ Instruments and apparatus used in Diagnostic Testing
